

General Microbiology 11:680:390

Application for Waitlist (Special Permission Number) Override

If the course is closed (i.e. full) you will need to apply for a **Special Permission Number** in order to register. Waitlist priority will depend on major, class and other need for taking the course in the given semester. Special **Permission Numbers may not be given until a week before classes depending on demand**. Space is limited and we cannot guarantee you a spot. We urge you to check online whether a section opens.

If your **pre-requisites** for the course (General Biology 01:119:115-116; General Chemistry 01:160:161-162; Organic Chemistry 01:160:209; 01:160:307 or 01:160:315, or equivalent) are not recognized by the computer system you will need a **Prerequisite Override**. If you have taking these courses in Newark or Camden you will need an override. Please complete the form and either email/mail to Lindsay Robinson (address below).

Name: _____ Rutgers ID: _____

Signature: _____

Email: _____

Major: _____ Year of Graduation: _____

Semester: Fall Spring Summer Section requested: _____

Prior relevant coursework (course name and number, grade):

Other reason for needing course in this semester:

I took and passed:

- Organic Chemistry 01:160:209
- Organic Chemistry 01:160:307
- Organic Chemistry 01:160:308
