

Lab Rotation Form for 16:682:611/612/613

Laboratory Rotations: Students should contact three different Microbial Biology faculty members and arrange research rotations.

The Lab Rotation dates in 2026-2027 are:

Course	Starting Date	Finish Date	Report Due
611	September 1	October 16	October 24
612	October 19	December 11	December 17
613	January 19	March 6	March 12

All rotations are 7 weeks long. Registration for 612 is in the Spring term even though the rotation is in the Fall term.

After the third rotation a research advisor should be chosen and the student should begin their thesis research in the second half of the Spring semester.

Please fill out the Rotation Form prior to the start of each rotation and e-mail a copy to Ms. Lindsay Vasy (lindsay.vasy@rutgers.edu). Immediately following each lab rotation a written report should be submitted by email to Dr. Jeff Boyd (jeffboyd@sebs.rutgers.edu). The written report should summarize the research performed for the rotation: background, specific aims/hypotheses, results, and discussion. The report should be approximately one page of single spaced text.

Student Name:

Email:

Lab Rotation: ☐ 16:682:611 ☐ 16:682:612 ☐ 16:682:613

Name of Professor in whose laboratory you will be rotating:
